THE INDIAN PLASTICS INDUSTRY

Indian Economy, one of the world's largest and fastest growing, has witnessed robust growth rates in recent times, becoming the world's fifth largest economy and moving towards number three. At the forefront of this progress is the plastic industry, which has emerged as a vital segment of the country's economy, demonstrating robust growth with its diverse applications across various sectors. An industry with a market size of 3.5 lakh crores has the potential to reach 10 lakh crores by the year 2027-28.

OPPORTUNITIES AT *Indplas*[®]'25

Indplas'25 presents an unparalleled opportunity in India's fastest-growing region. Embracing this year's theme, 'The Future is East', we aim to innovate, transform and showcase your company's brand image and reputation in the dynamic markets of Eastern India.

Engage with the thriving plastic industries of West Bengal, Odisha, Bihar, Jharkhand, Assam, and other North Eastern States.

Network with top entrepreneurs, investors and government bodies under one roof.

Join us in Kolkata and unlock the gateway to growth and innovation in the Eastern Indian plastic sector.

The exhibition will feature several seminars on various topics, including the environment and recycling, opportunities in various plastics sectors, skill development, and government policies and subsidies.

Raw Material polymers & Resins Intermediates Blend & Alloys

Master Batches, Additives, Filler Compounds, Speciality Chemical & Inks

Household Goods, Writing Instruments & Toys

Plastics Processing Machines

Irrigation, Raffia & Non-woven

ADVANTAGES OF EASTERN INDIA

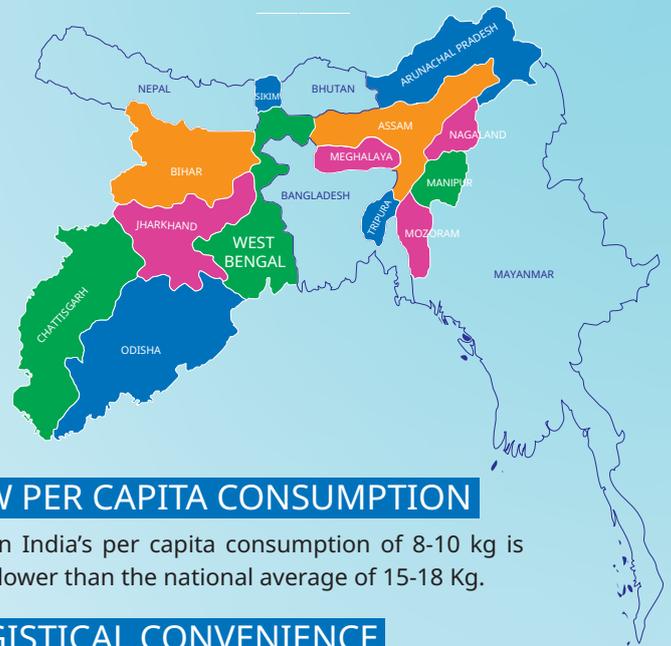

THE FUTURE IS **EAST**

EFFORTLESS ACCESSIBILITY OF POLYMERS

As a major producer of petrochemicals, Eastern India benefits from easy access to polymers from Haldia Petrochemicals Ltd., in West Bengal, Brahmaputra Crackers & Polymers Ltd. In Assam and Indian Oil Corporation Ltd in Odisha.

EXPLORE UNTAPPED POTENTIAL OF EASTERN INDIA

With the highest growth rate in the country, Eastern India presents significant opportunities for expanding plastic goods production, given its currently lower production levels.

LOW PER CAPITA CONSUMPTION

Eastern India's per capita consumption of 8-10 kg is much lower than the national average of 15-18 Kg.

LOGISTICAL CONVENIENCE

Eastern India offers exceptional logistical advantages with major ports like Kolkata, Haldia, & Paradip, enhancing the potential for export & import expansion.

ABOUT INDPLAS'22

Being first Plastics exhibition in Kolkata after COVID-19 pandemic, the 9th edition INDPLAS'22 held in November 2022, had garnered tremendous support from both the industry and the government. It provided a boost and a platform to the industry to overcome the difficult time and get them back to normal business.

The show had 380 plus exhibitors from India and overseas countries, occupying 8000 plus sqm of area. The show witnessed a healthy footfall of more than 1,50,000 visitors over the four days.

INDPLAS' 22 Glimpses

ORGANISERS

The Indian Plastics Federation (IPF), established in 1958, is a leading Plastics association in India and one of the founding member of the Plastindia Foundation. With a robust membership of 1000+ patrons, IPF represents a diverse range of sectors, including petrochemical producers, plastic processors (both large and small), machine manufacturers, ancillary equipment manufacturers, traders, distributors and agents.

Focused on the development of the plastics industry, IPF is engaged in various activities such as trade promotions, seminars, establishment of knowledge centre for skill development, environment protection activities, collaborating with the government on policy formation etc.

Since organizing India's first-ever plastics exhibition in 1981, IPF has held a total of nine editions till 2022.
